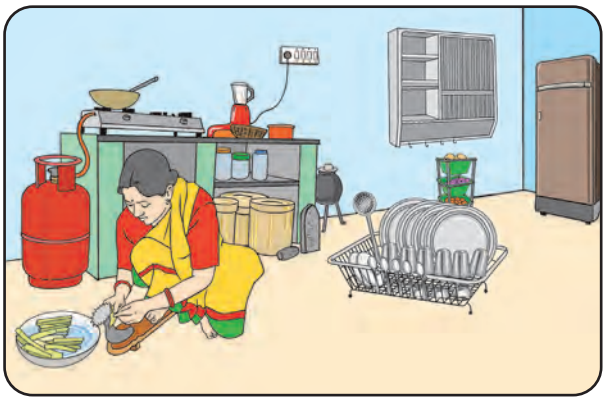
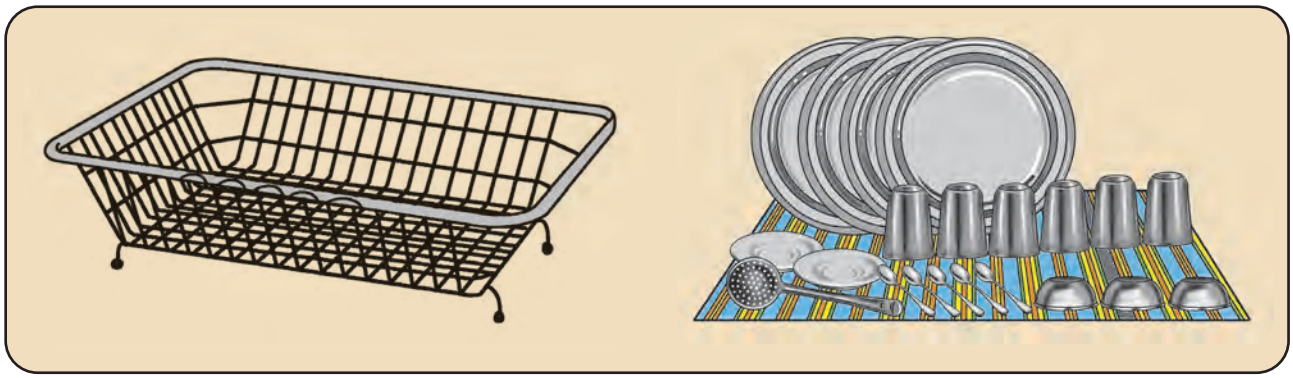
16 Handling Data

Help the Mother



Baba : Sameer, come here! Let us help your mother to place the utensils.

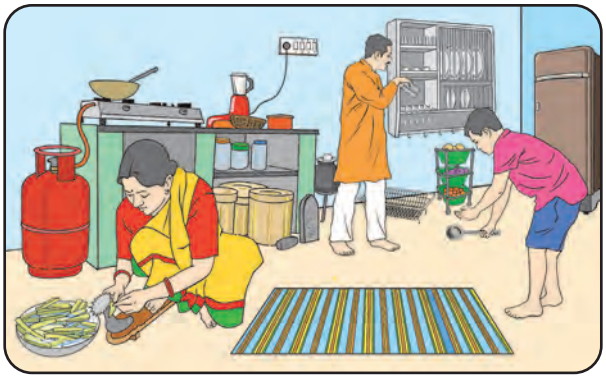
Sameer : Yes, here I am!
(Sameer took away all the utensils from the basket. He arranged all spoons, glasses, bowls, plates seperately on the mat.)



Baba : Sameer, bring here all the utensils.

Sameer : Yes baba, take these 5 spoons and 3 bowls.

Baba : Now give me plates, glasses and dishes.



Sameer : Yes baba! These are 4 plates, 6 glasses and 2 dishes. Oh! I have missed to keep this big spoon!

Baba : Give it, are you done with all the utensils?

Sameer : Yes baba!

Baba : Well done! Mother is done with her work quickly because of your help.

Students should be taught the concept of handling data through communication.

* **Count and write the number of utensils placed on the mat.**

Utensils on the mat	Number of utensils

Activity : Help your parents to fold the clothes and arrange them neatly.

* **Observe the picture.**

* **Complete the following table by observing this picture.**

Colour / Objects	Blue	Yellow	Red
Umbrellas	7		
Raincoats			

* **Tick (✓) the correct answer using the table.**

→ What colour umbrellas are more? Blue / Yellow / Red

→ What colour raincoats are less? Blue / Yellow / Red
